

IGT MEMBER IMPORT FILE SPECIFICATION

This document outlines the file specification for the IGT Member Import that is imported via the Service Monitor into SwiftPOS.

3-Jan-2022 - The last column (AI) has been added to flag if a Member is making use of a Direct Debit facility.

File is called 01012015_PlayerExtract.CSV which is the <date>_ PlayerExtract.CSV in a shared folder that can be set.

<date> is ddmmYYYY. Sale is processed by the Service Monitor every 60 seconds and archived.

The file could also be called ddmmYYYY-minutes-seconds_PlayerExtract.csv if you want to create unique files instead of appending to an existing file.

21062016_PlayerExtract.CSV will create a debug file called <date>-ErrorFile.ERR which shows you the history of what was imported.

Excel Column	Field Name	Format	Example	Required	Comments for SwiftPOS
A	Old Membership No	Integer (9 digit)	123456789	N	(can be blank or same as existing Member Number)
B	New Membership No	Integer (9 digit)	123456789	Y	Member Number (key field to update existing Members)
C	Title	String(12)	Mr	N	Member Title
D	Preferred Name	String(50)	Ron	N	Not used by SwiftPOS
E	First Name	String(50)	William	N	First Name
F	Middle Name	String(50)		N	Middle Name
G	Surname	String(50)	Van Lathan	Y	Last Name
H	Address Line 1	String(50)	12 Smith St	N	Street
I	Address Line 2	String(50)		N	Street2
J	Suburb	String(30)	Perth	N	City
K	State	String(12)	WA	N	State
L	Postcode	String(10)	8034	N	Zip/Postcode
M	Country	String(50)	Australia	N	Not used by SwiftPOS
N	Occupation	String(50)	Carpenter	N	Occupation
O	DOB	Date yyyy-MM-dd	1945-03-13	N	Birthday
P	Gender	String(1) M or F	M	N	Gender
Q	Home Phone	String(16)	0733518777	N	Home Phone
R	Work Phone	String(16)	0733518777	N	Work Phone
S	FAX	String(16)	0733518777	N	Fax
T	Mobile	String(16)	0733518777	N	Mobile/Cell Phone
U	Email	String(50)	support@swiftpos.com.au	N	email
V	URL	String(50)	www.swiftpos.com.au	N	Member URL
W	Financial To	Date yyyy-MM-dd	2018-12-31	N	Financial Date/Paid To Date
X	Date Joined	Date yyyy-MM-dd	2010-06-11	N	Join Date
Y	Full Card Encoding	string(40)	123456789	N	Member Alternate ID in SwiftPOS. If you Card Number is different to the Member Number, then this is the Card Number

IGT MEMBER IMPORT FILE SPECIFICATION

					field.
Z	Membership Types	String(~)	Social Member Full Member Gold Silver Bronze	Y	This is an exact match to the Classification Description in SwiftPOS. If it does not match then the Classification is left blank.
AA	Not Used	String(15)		N	Not used by SwiftPOS
AB	Action	String(1) C = Change D = Delete A = Add	C	Y	"C" will also create a New Member if it does not already exist. "D" will place the Member in the Classification for Deceased Members which are not sent to the POS.
AC	Last Change Date	Date yyyy-MM-dd	2015-12-10	N	Default is blank
AD	Unique Card ID	String(8)	123456789	N	Not used
AE	Status	String(1) W = Waiting A = Active R = Resigned D = Delete	A	N	Default is blank
AF	Tier	String(50)	Silver	N	Linked Classification
AG	PlayerID	integer	111111	Y	This is the external Sync ID in the SwiftPOS Member Record. Any lookup for an existing Member is done using this field.
AH	HomeClub				
AI	Direct Debit	String(1)	Y	N	If value = Y, then the Direct Debit flag in SwiftPOS will be set as 'true'. If the value is anything else, eg.. N or empty, then the Direct Debit flag in SwiftPOS will be set as 'false'.
